

# MONOCLONAL ANTIBODIES SA

IMVS 1823/G PAGE 1/3

## SUBMISSION FORM

[www.imvs.sa.gov.au/vet](http://www.imvs.sa.gov.au/vet)

### Client and Project Details

**Please Note: Project will NOT commence until form has been completed\***

### Job Required

For immunisation & fusion, please fill out **Section A**.

If cloning is required, please fill out **Section B**.

For antibody purification from an established hybridoma cell line (made by MAbSA or otherwise), please fill out **Section C**.

\*Please be as detailed as possible and **sign the declaration on the last page** before sending/faxing the completed form to MAbSA as soon as possible.

IMVS Veterinary Services Division

**phone** +61 8 8261 1033 **fax** +61 8 8261 2280 **e-mail** [vet.services@imvs.sa.gov.au](mailto:vet.services@imvs.sa.gov.au)

\*The IMVS makes no express or implied warranties in respect of the Supply except where this would contravene any statute or where the exclusion of an express or implied term, condition or warranty would be void (collectively, "Non-excludable Warranty"). However, where exclusion of express or implied warranties does not constitute a Non-excludable Warranty, IMVS excludes all warranties, terms and conditions and all liability to the Client for consequential or indirect loss or damages. In any event, in respect of both Non-excludable Warranties and excludable warranties, the IMVS' liability arising from anything under this Supply is limited, at the IMVS' election, to an amount equal to the payment received from the Client for the Supply or the repeat provision of the Supply.\*

## Section A: Immunisation and Fusion

Name and type of Immunogen:		
Physical appearance (solid/liquid/gel/blot etc) and storage requirements of immunogen:		
Number of vials and volume/concentration of immunogen submitted:		
Is the immunogen hazardous (to humans or animals)?	Yes/No	Details:
Are carrier proteins used with immunogen and/or screening antigen?	Yes/No	Details:
Is immunogen conjugation required?	Yes/No	Details:
Screening material supplied (ELISA plates or antigen conjugated etc):		
Preferred Immunoglobulin class? (eg. IgG, IgM or any):		
Is isotyping required?	Yes/No	
Additional requirements/instructions:		

## Section B: Cloning

Number of cell lines required to be cloned:		
What is the intended application for the monoclonal antibody (eg ELISA, western blot, in vivo etc)?		
Is supernatant required to be sent for additional testing during the cloning process?	Yes	No
Is cryovial storage of cell lines under Liquid Nitrogen required (4 vials per monoclonal cell line) at MAbSA facilities?	Yes	No
Is weaning to serum free medium required?	Yes	No
Additional requirements/instructions:		

## Section C: Antibody Purification

Hybridoma identification and specificity (please include origin of cell line ie. MAbSA etc)	
Growth requirements	

IMVS Veterinary Services Division

**phone** +61 8 8261 1033 **fax** +61 8 8261 2280 **e-mail** [vet.services@imvs.sa.gov.au](mailto:vet.services@imvs.sa.gov.au)

\*The IMVS makes no express or implied warranties in respect of the Supply except where this would contravene any statute or where the exclusion of an express or implied term, condition or warranty would be void (collectively, "Non-excludable Warranty"). However, where exclusion of express or implied warranties does not constitute a Non-excludable Warranty, IMVS excludes all warranties, terms and conditions and all liability to the Client for consequential or indirect loss or damages. In any event, in respect of both Non-excludable Warranties and excludable warranties, the IMVS' liability arising from anything under this Supply is limited, at the IMVS' election, to an amount equal to the payment received from the Client for the Supply or the repeat provision of the Supply.\*

Number of harvests? (Minimum 4, producing at least 20mg)		
Is purification of Ab required (protein A/G/L affinity chromatography)?	Yes	No
Has this cell line been screened for Mycoplasma?	Yes	No
Has this cell line been screened for murine virus contamination?	Yes	No
Antibody class produced by hybridoma (eg. IgG1a, IgM, etc)		
Antigen class (eg. protein, carbohydrate etc.)		
Normal yield of monoclonal in stationary culture supernatant (mg/ml) (if known).		
Myeloma line used in hybridoma production (if known).		
Will the antibodies be used in vivo in animals?	Yes	No

Unless otherwise specified, purified antibody will be sent in 1mL aliquots in PBS buffer with the addition of the preservative sodium azide to 0.02%. If the antibody is to be used in vivo, please request that sodium azide is not added. We will endeavour to meet your individual requirements, however for more complex requests additional costs may be incurred.

Please specify antibody requirements (i.e. buffer, sodium azide, lyophilisation etc):

---

---

### **Additional Services (extra charges may apply)**

Isotyping	Yes	No
Mycoplasma testing	Yes	No
Endotoxin testing	Yes	No
Isotype switching	Yes	No
Antibody fragmentation	Yes	No

### **Declaration (Terms of Trade available on MAbSA website)**

***"I declare that the antibodies will NOT be used in vivo in humans and that I have read and accepted MAbSA's Terms of Trade available on the MAbSA webpage"***
